Position summary

Real Estate Services - Strategy Analyst/Sr. Analyst

Are you passionate on working with data and creating visually interactive reports and presentations? The role involves working with Real Estate Services (RES) leadership team and supporting them in strategic priorities/initiatives in line with function's overall business objectives.

Work you'll do

RES Strategy Analyst/Sr. Analyst role interacts regularly with the key stakeholders of US SP&O team to develop Real Estate strategy work product. The role also acts as a liaison with the other teams such as Information Technology, Talent etc. for information required from these teams for the final deliverable.

Essential Functions of the Role:

- Extract, clean and synthesize large volumes of data to develop compelling, insightful reports that aid in Real Estate decision-making
- Think analytically to visualize, articulate, conceptualize, or solve problems by making decisions based on available information
- Implement and improve quality controls across projects with a keen eye for detail; identify patterns, facts, and details to derive solutions to process-related issues
- Develop visually appealing, meaningful presentations for leadership summits
- Conceptualize/visualize business solutions and produce customized deliverables
- Assist management through data analytics with identification of problems, trends, and/or future space needs
- Create and maintain standard operating procedures (SOPs) to document process steps for each deliverable
- Manage the internal team site by regularly updating work-related projects; update the team log report daily
- Proactively identify and seek opportunities to enhance current processes, driving efficiency and improvements
- Conduct external or third-party research on Real Estate strategy and other topics as needed
- Foster high-impact cross-functional relationships (e.g., IT, Talent) to deliver insightful reports, improve data integrity/management, and help leadership evaluate and drive performance
- Adopt a consultative/partnering approach with stakeholders; ability to “wear many hats”
- Communicate efficiently and present deliverables in a cross-cultural environment

-
- Use approved Generative AI (GenAI) tools to accelerate research, synthesis, and first-draft deliverables, with human review before sharing
 - Apply prompt engineering to convert stakeholder asks into structured prompts (context, constraints, assumptions, required format) and iteratively refine for higher-quality outputs
 - Support agentic workflows/AI agents for multi-step tasks (e.g., collect inputs → extract themes → draft storyline → format to template → QA), with clear checkpoints and handoffs
 - Implement AI-specific quality checks (e.g., reconcile figures to source data, completeness checks, “unsupported claim” flags) and track improvement metrics (rework themes, edit time drivers)
 - Maintain reusable prompt/playbook libraries aligned to recurring RES outputs (dashboards, leadership readouts, summit packs) and embed into SOP updates

The team

The Deloitte Real Estate team consists of an integrated, cross-functional group of outstanding resources. We value collaboration, innovation, integrity and exceptional service and foster a culture that helps you develop and motivates you to excel.

Qualifications & Expertise

- Business degree or post-graduation degree
- 3–7 years relevant work experience with emphasis in data analysis & reporting
- Experience working with a U.S. based company
- Must possess strong listening, oral, written, presentation, and communication skills
- Comfortable interacting with senior leadership (Senior Manager / Managing Director level)
- Advanced computer application skills in Microsoft Excel and PowerPoint
- Demonstrates a high level of attention to detail for reliable accuracy
- Experience in Visual Basic (Macros) preferred
- Experience working in a team and as an individual contributor
- Exposure to automation tools such as Python, Java preferred
- Practical experience using approved Generative AI (GenAI) tools to accelerate research, synthesis, and executive-ready drafts, with human validation
- Prompt engineering skills (structured prompts with context/constraints; iterative refinement; consistent output formatting)
- Familiarity with AI agents / agentic workflows (breaking work into steps; defining checkpoints; human-in-the-loop review)
- Ability to apply AI quality controls (e.g., reconcile figures to source data, flag unsupported claims, track rework drivers like % outputs needing edits)
- Working knowledge of Responsible AI / data handling (avoid sensitive data in prompts; follow confidentiality and tool-usage guidelines)

Other Details

Work Timings: 2:00 PM to 11:00 PM

Location: Hyderabad, India

How you'll grow

to help accelerate their careers along the way. No two people learn in the same way. So, we provide a range of resources including live classrooms, team-based learning, and eLearning. DU: The Leadership Center in India, our state-of-the-art, world-class learning Center in the Hyderabad offices is an extension of the Deloitte University (DU) in Westlake, Texas, and represents a tangible symbol of our commitment to learning.
