## Qualifications required:

- Any Graduation/ Engineering Degree (preferably computer science)/MCA or relevant experience
- 2-3 years of hands-on UI/UX design and development in-depth experience with rich template-based designs and web design, usability and development best practices with HTML, CSS, JavaScript, front-end frameworks (Bootstrap), jQuery, CSS pre-processors (SASS, LESS)

- Expert knowledge in Adobe Photoshop, Adobe XD and Figma (**Portfolio would definitely be an added advantage**)
- Ability to convert static content into engaging interactive experiences
- Sound experience in web content management systems (CMS).
- SharePoint 2010/13 knowledge is an added advantage.
- Solid grasp of user-centric design, rapid prototyping, heuristic evaluation, usability and accessibility concerns
- Ability to take decisions and suggest alternatives with the changing priorities
- Experience working with brand and/or design guidelines
- Experience with Typescript and static type checking methodologies
- Ability to clearly and effectively communicate design processes, ideas, and solutions
- Ability to work effectively in a virtual team setting including synthesizing abstract ideas into concrete designs
- Excellent analytical and problem-solving skills
- Excellent written and verbal communication skills
- Ability to take initiative and interact with all levels of management; self-starter
- Good relationship building/relationship management skills to establish rapport, trust and confidence with internal marketing and communication teams
- Detail oriented, with high sense of ownership
- Ability to work in an agile environment, quickly adapting to new processes and managing multiple assignments under tight deadlines
