Position summary

Analyst – Technical Developer – CoRe Business Solutions, Digital Customer Solutions – Digital Data Analytics Innovation – Deloitte Support Services India Private Limited

Are you a quick learner with a willingness to work with new technologies? CoRe Business Solutions team offers you an opportunity to be an integral part of the Digital Customer Solutions Group. The principal focus of this group is to customize technical solutions for global Deloitte Member Firms to address a variety of business needs including marketing and communication, knowledge management, learning and development, and overall process automation. The team uses primarily Microsoft SharePoint (on-prem and cloud) as a platform. We use various web development and automation tools/technologies (i.e. HTML, jQuery, Java Script, React Js, Bootstrap, REST API, JSON, Nintex, KwizCom, Kendo, Azure, Power Apps/Flows, and many more) within a structured delivery process to develop products that deliver significant value to our internal customers across Deloitte's global network.

Job Responsibilities:

- Create tailored SharePoint solutions that meet specific organizational needs using SharePoint OnPrem(2013/2016/2019), SharePoint Online.
- Use SharePoint Designer, Visual Studio, or other tools to modify the appearance and functionality of SharePoint sites according to project requirements.
- Deploy SharePoint solutions effectively, ensuring minimal disruption to existing services.

debugging code, fixing bugs, and resolving user access issues.

- Collaborate effectively with lead developer and solution architects for technical queries and resolve them proactively.
- Communicate effectively with team members to understand requirements, provide updates, and collect feedback on SharePoint projects.
- Maintain Documentation: Keep detailed documentation of the SharePoint architecture, configurations, and custom developments to assist in future maintenance and upgrades.
- Develop user guides, FAQs, and training materials to assist end-users in navigating and using SharePoint functionalities efficiently.
- Adhere to industry standards and legal regulations concerning data security, privacy, and usage within the SharePoint environment.
- Stay updated with the latest SharePoint development practices and technologies to ensure sustainable and effective solutions.
- Engage in continuous professional development to enhance skills in SharePoint and related technologies, such as attending workshops, obtaining certifications, and participating in relevant training.

Location:Hyderabad

Shift Timings: 11:00 AM – 8:00 PM

Experience: 2+ years

Skill Requirements:

Technical

- Intermediate knowledge of the Software Development Life Cycle (SDLC).

How you'll grow

At Deloitte, we've invested a great deal to create a rich environment in which our professionals can grow. We want all our people to develop in their own way, playing to their own strengths as they hone their leadership skills. And, as a part of our efforts, we provide our professionals with a variety of learning and networking opportunities—including exposure to leaders, sponsors, coaches, and challenging assignments—to help accelerate their careers along the way. No two people learn in exactly the same way. So, we provide a range of resources including live classrooms, team-based learning, and eLearning. DU: The Leadership Center in India, our state-of-the-art, world-class learning Center in the Hyderabad offices is an extension of the Deloitte

At Deloitte, we know that great people make a great organization. We value our people and offer employees a broad range of benefits. [Learn more about what working at Deloitte can mean for you.](#)

Deloitte's culture
