Annual Energy Consumption Trend

Monthly Electricity & Natural Gas Consumption

Portfolio Overview

YTD Energy (kWh)	YoY % Variance	YTD Electricity (kWh)	YoY % Electricity Variance	YTD Gas (kWh)	YoY % Gas Variance
40,908,502	-14.8%	34,842,382	-9.9%	6,066,120	-35.3%

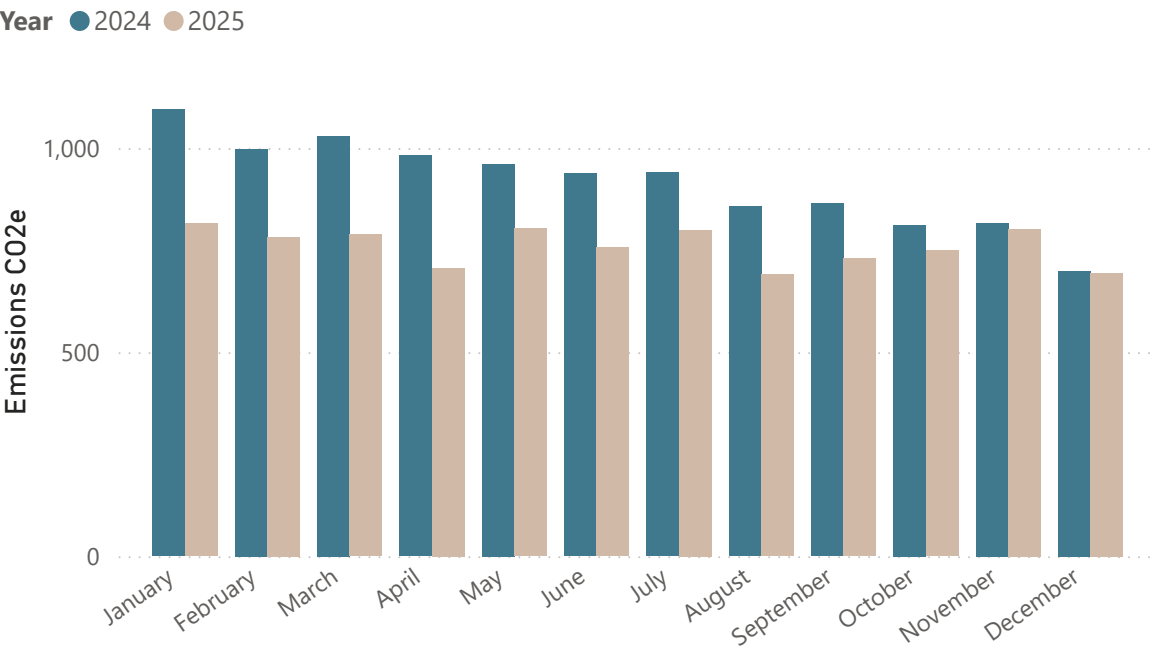

Portfolio commentary

For October'25 - December'25, the EMEA portfolio has reduced by 2%.

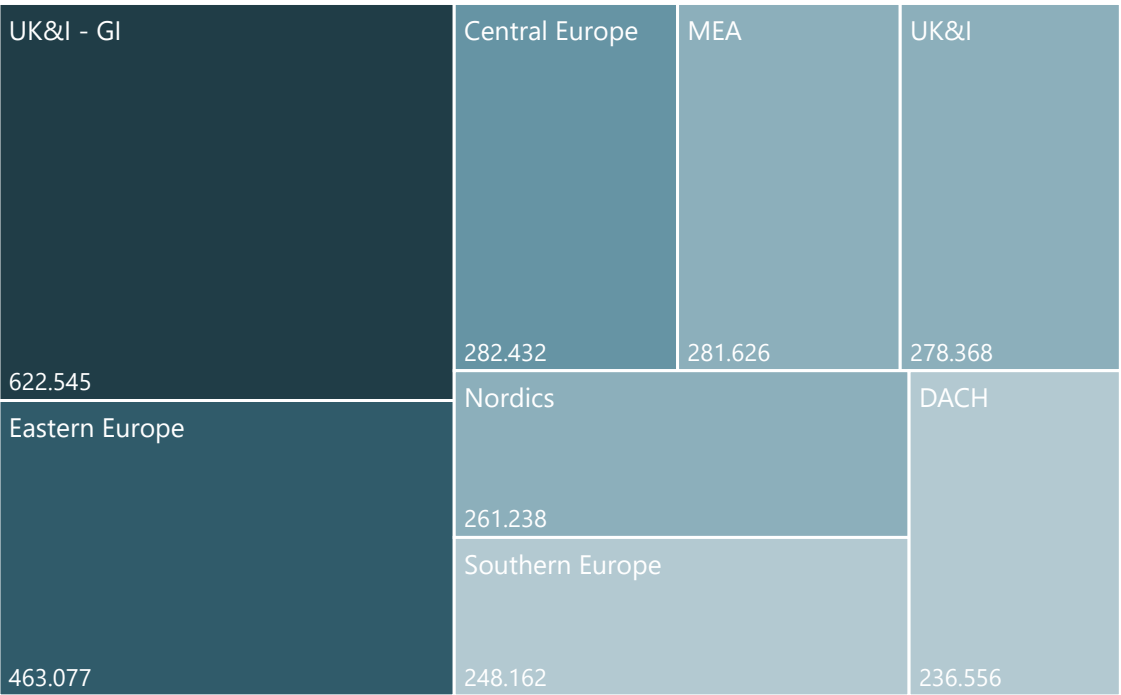

The Largest Consumer is Dundalk Toner which accounts for around 18% of Total Q4 YTD Consumption. The Data is based on received invoice and Meter data.

Given the acquisition of Go Inspire portfolio(consisting of 6 sites), it accounts for 14% of the total energy consumption of the entire Xerox EMEA portfolio.

Emissions YoY

Regional EUI (kWh/m²)

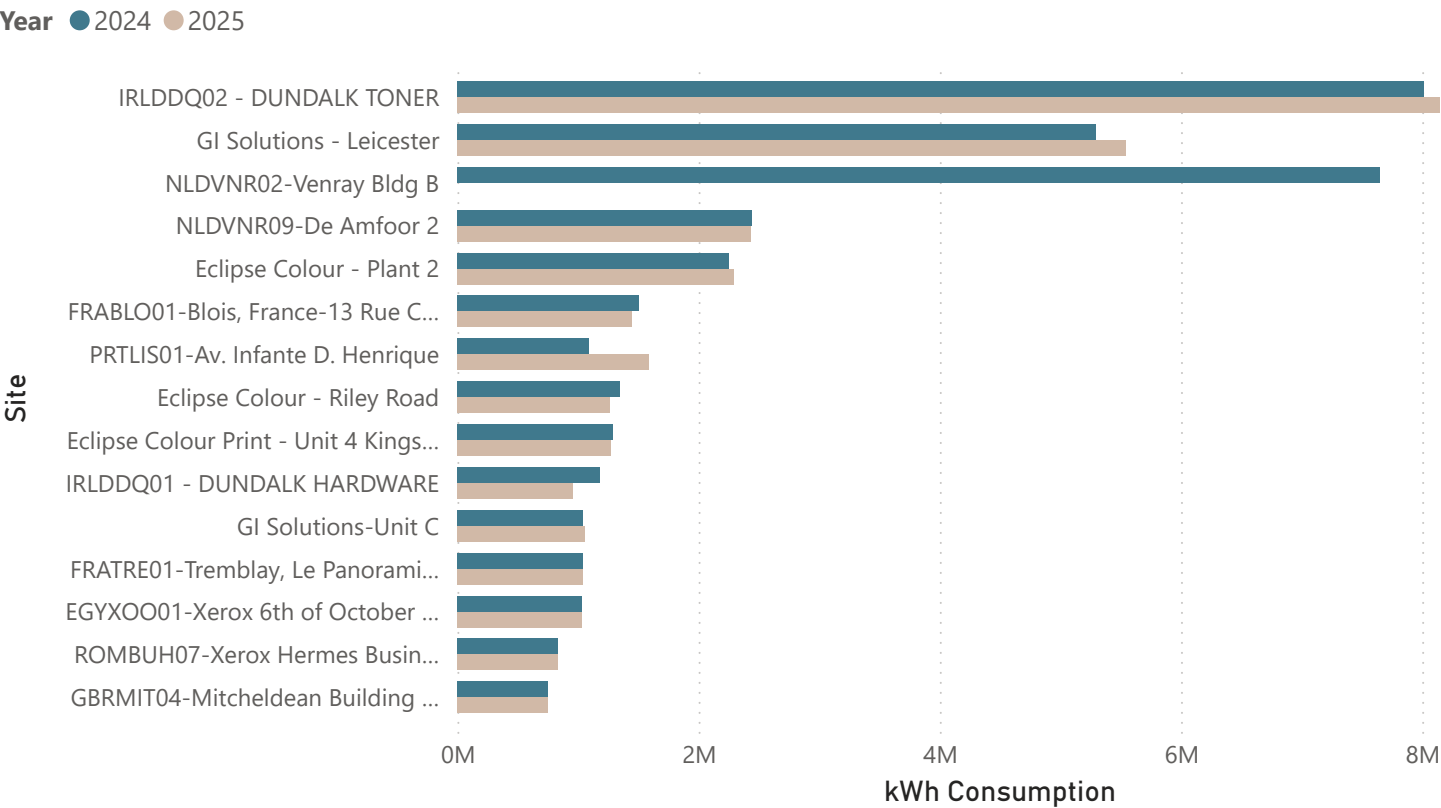

Regional commentary

UK & I (GI) become the higher EUI region in Q4 with 622kWh/m2. The non-GI remaining part of the region experienced relatively stable consumption in realtion to previous year, with reductions observed in Glasgow concept and Wimbourne.

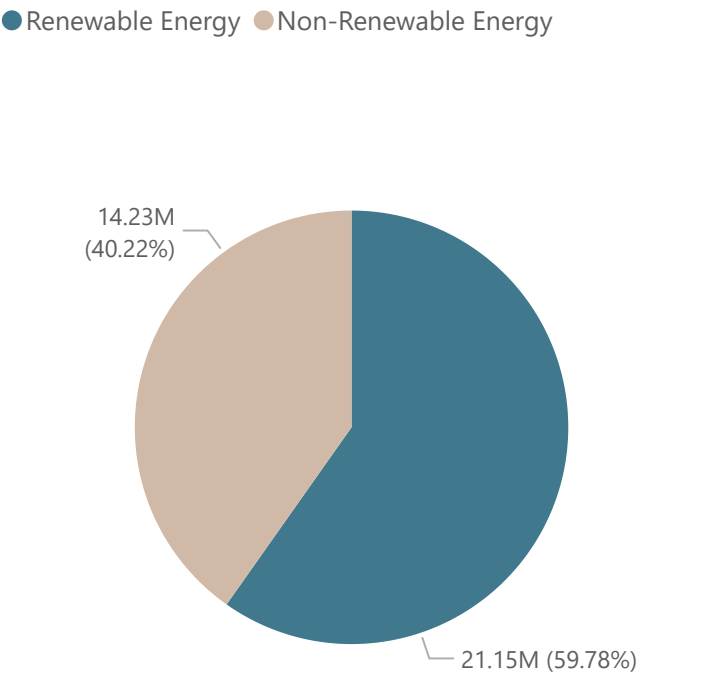

Eastern Europe Has an EUI of 463kWh/m2 contributing to the Xerox EMEA portfolio

The France observed EUI in France 370kWh/m2.

Top 15 Energy Consumers

Renewable Energy (kWh) Proportion

UK&I

United Kingdom

Region Overview

YTD Energy (kWh)	Prev. YTD Energy (kWh)	YoY % Variance
14,635,599	14,387,435	1.7%
QTD Energy (kWh)	Prev. QTD Energy (kWh)	QoQ % Variance
3,743,411	3,784,890	-1.1%

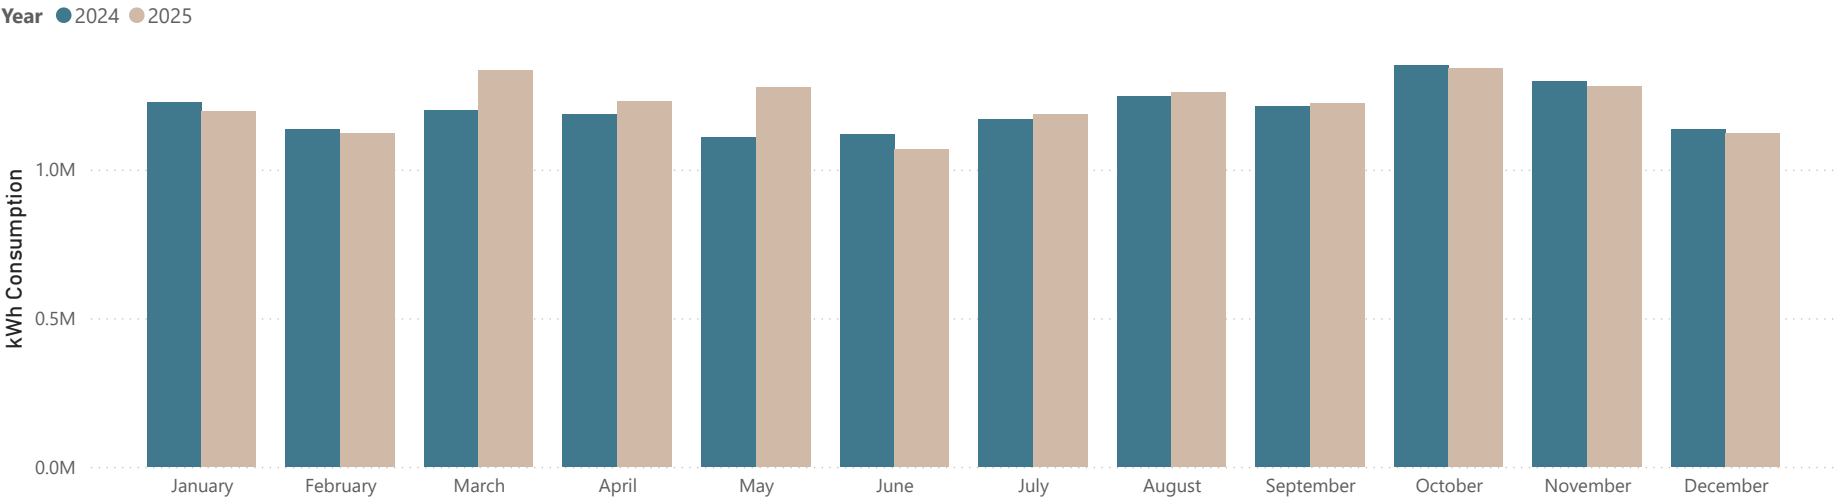

Energy Use Intensity

2025:
427 kWh / m²
2024:
420 kWh / m²

Certified Renewable %

85%

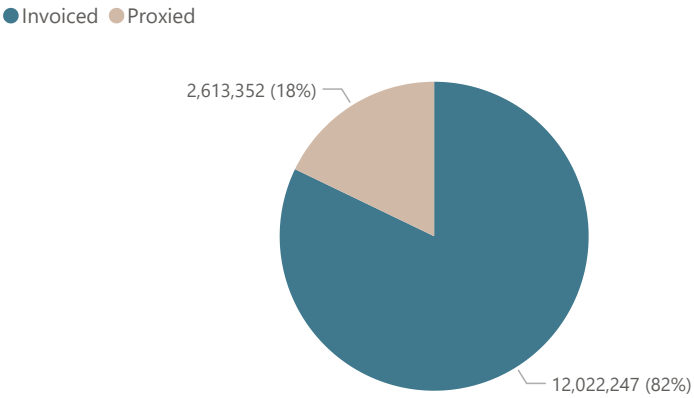

Annual Energy Consumption Trend

Monthly Electricity & Natural Gas Consumption

Proportion of Invoiced/Proxied Data in kWh

Commentary

Electricity supply in UK sites are 100% renewable except for Bristol, Wakefield and Wimbourne, where we are still requesting for the concerning information.

Central Europe

Netherlands

Region Overview

YTD Energy (kWh)	Prev. YTD Energy (kWh)	YoY % Variance
3,350,036	10,935,566	-69.4%
QTD Energy (kWh)	Prev. QTD Energy (kWh)	QoQ % Variance
850,036	1,074,916	-20.9%

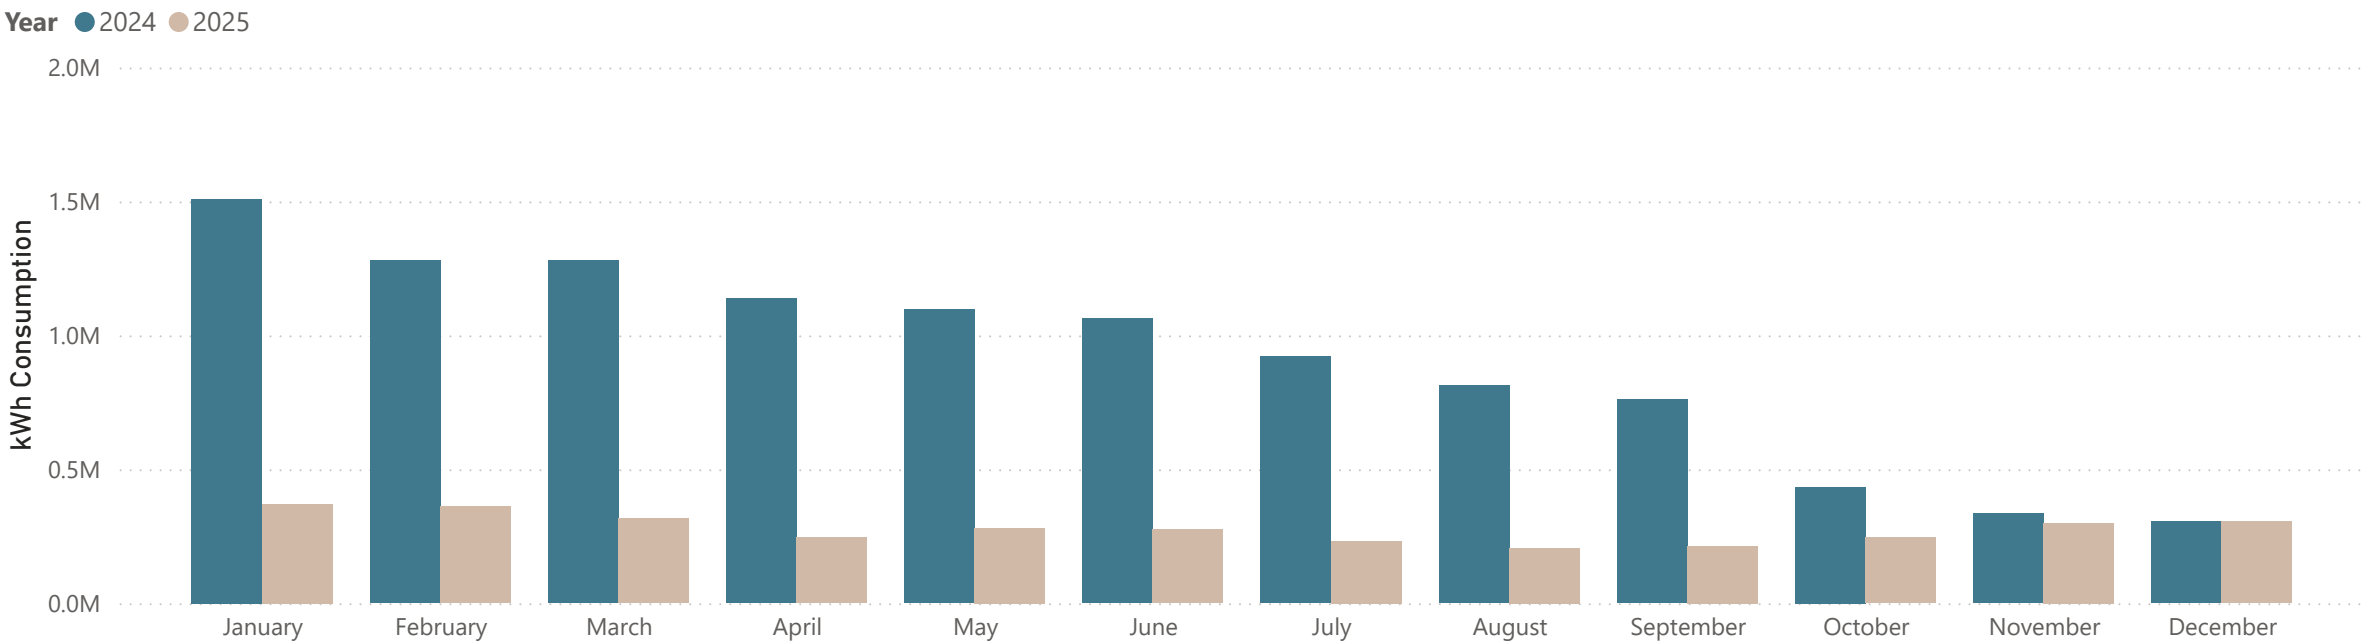

Energy Use Intensity

2025:
159 kWh / m²
2024:
519 kWh / m²
-69.4%
EUI % Variance

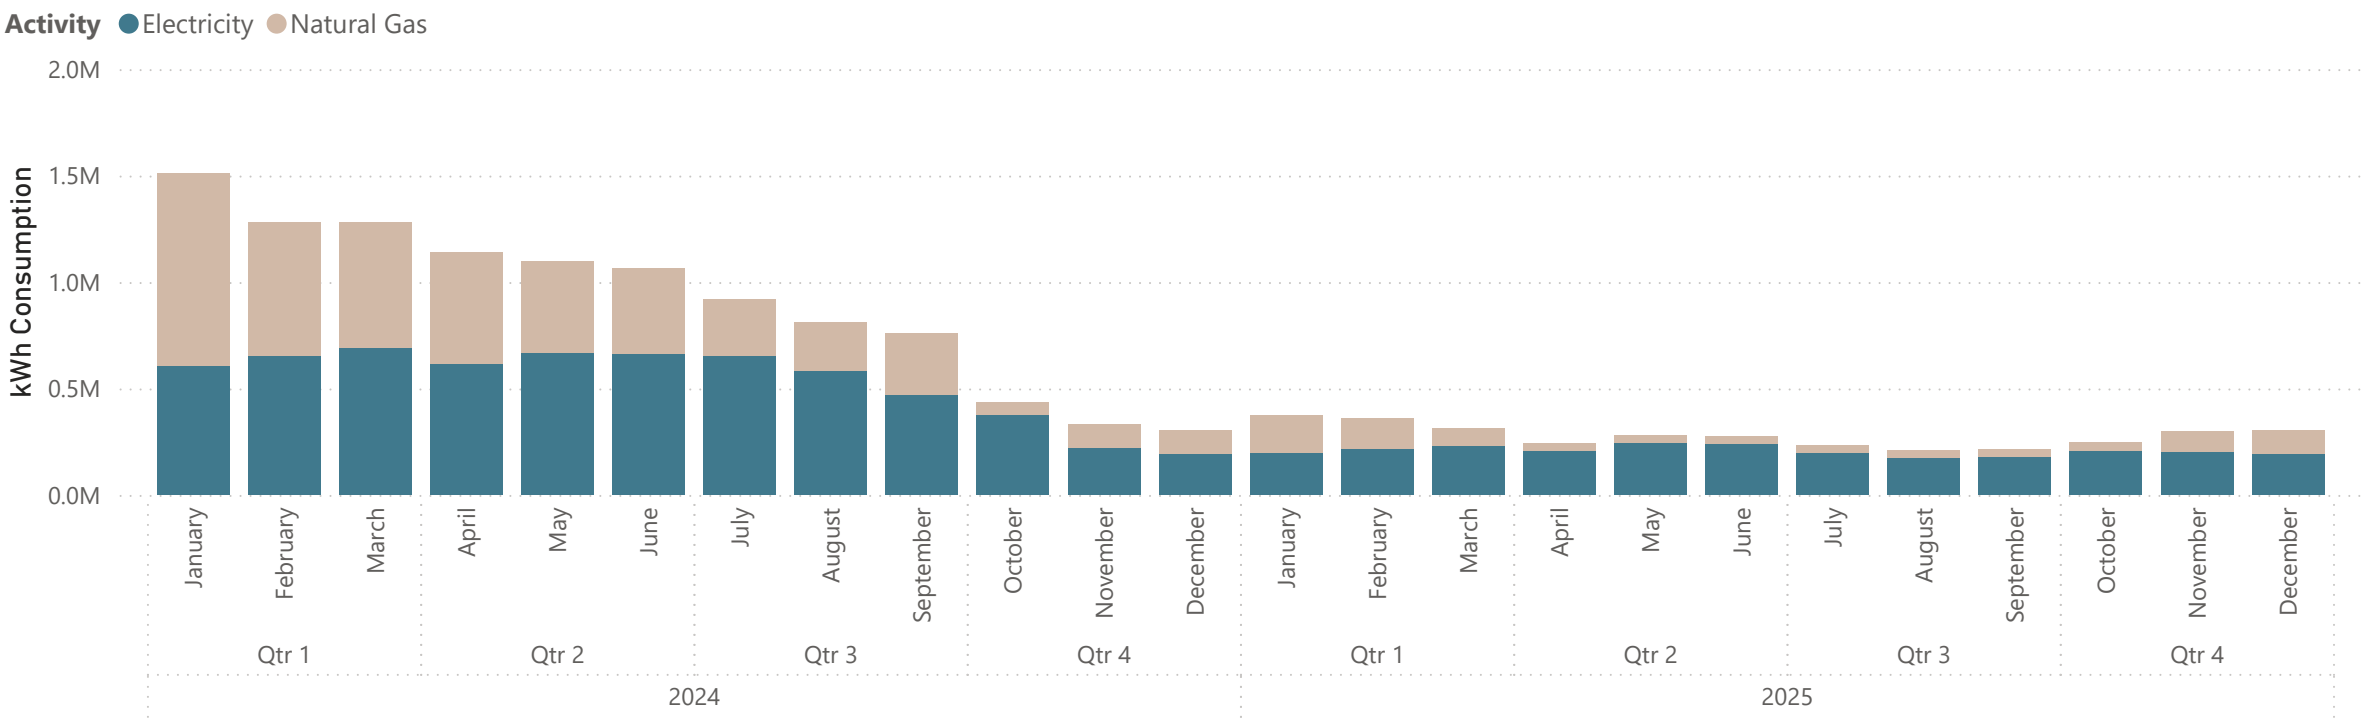

Certified Renewable %

74%

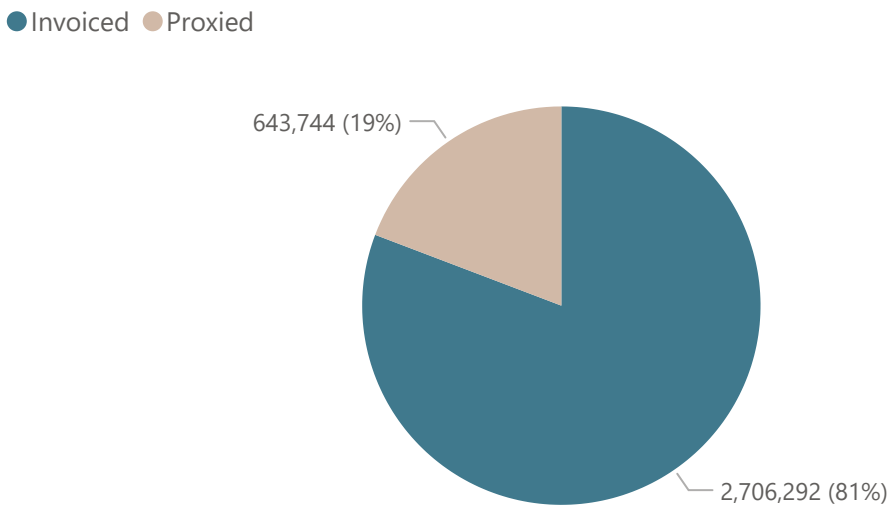

Annual Energy Consumption Trend

Monthly Electricity & Natural Gas Consumption

Proportion of Invoiced/Proxied Data in kWh

Commentary

The largest consumer in Central Europe is De Amfoor in Netherlands. The reduction in EUI follows the seasonal pattern observed last year - phase out of the heating season starting in Q2 each year.

Central Europe

France

Region Overview

YTD Energy (kWh)	Prev. YTD Energy (kWh)	YoY % Variance
5,077,983	5,112,004	-0.7%
