

AMRUTHA B S

Analyst – Market Intelligence & Strategic Insights

Bengaluru, Karnataka +91 7349131953 amruthabs2795@gmail.com

PROFESSIONAL SUMMARY

Analytically driven professional with 2–3 years of experience in sustainability research, market analysis, and strategic reporting across corporate and research environments. Adept at synthesizing complex, multi-source datasets into crisp, actionable insights and leadership-ready deliverables. Strong command of business writing, data storytelling, and executive presentation — with hands-on experience using GenAI tools and prompt engineering to accelerate research workflows. Exposure to global stakeholder environments and cross-functional collaboration, with a postgraduate foundation in Environmental Science and deep familiarity with ESG, industry KPIs, and macroeconomic factors driving sector dynamics.

PROFESSIONAL EXPERIENCE

Analyst – Sustainability Data & Reporting

2025 – Present

JLL (Jones Lang LaSalle) | Bengaluru, India

- Delivered strategic market intelligence reports and ESG performance analyses for senior leadership, synthesizing large datasets (energy, emissions, water, waste) into concise, actionable narratives with clear "so-what" recommendations.
- Designed and maintained advanced Power BI and Excel dashboards to track industry KPIs, enabling leadership to monitor trends, benchmark performance, and make data-informed decisions.
- Produced high-quality executive presentations and written reports, translating complex ESG data and macroeconomic factors into leadership-ready outputs — directly aligned with GSIC's research and insights deliverables.
- Leveraged JLL's integrated enterprise GenAI platform (including Claude Sonnet and other LLMs) with structured prompt engineering to streamline research workflows, accelerate report generation, and improve output quality.
- Collaborated with cross-functional global teams across APAC, EMEA, and Americas to refine project priorities, manage expectations, and ensure alignment with client and stakeholder goals.
- Developed SOPs and quality control frameworks to standardize reporting processes, reduce errors, and ensure consistency across deliverables — supporting team knowledge management and onboarding.
- Identified patterns and variances in sustainability datasets to surface improvement opportunities and present logical, structured analyses to senior stakeholders.
- Mentored junior analysts on data handling, report writing, and tool usage, fostering a culture of quality and continuous learning within the team.

Environmental Consultant – Research & Strategy

2022 – 2024

KSCST – Karnataka State Council for Science & Technology (IISc) | Bengaluru, India

- Conducted in-depth secondary research on sustainability trends, decarbonization strategies, and ESG frameworks, translating findings into structured reports and strategy presentations for institutional stakeholders.
- Built analytical dashboards to visualize environmental data, enabling policy teams to monitor performance against sustainability benchmarks and identify key drivers of change.
- Collaborated with senior researchers to develop market assessments and strategic recommendations on climate risk and resource optimization.
- Presented research findings and insights to senior leadership, demonstrating strong business writing and communication skills in a professional services environment.

- Supported quantitative and qualitative data analysis for academic research projects on environmental sustainability and resource efficiency.
- Prepared research summaries and analytical documentation, demonstrating ability to independently deliver research outputs in a global, cross-cultural setting.
- Applied analytical tools to identify trends and patterns in environmental datasets, contributing to peer-reviewed research outputs.

EDUCATION

Master of Science – Environmental Science Bangalore University, Bengaluru	2017 – 2019
Bachelor of Science M.S. Ramaiah College of Arts, Science & Commerce, Bengaluru	2013 – 2017

TECHNICAL & FUNCTIONAL SKILLS

Research & Analysis: Secondary research, market intelligence, industry benchmarking, competitor analysis, macroeconomic analysis	Data & Reporting Tools: Advanced Excel (Pivot Tables, VLOOKUP, Data Analysis), Power BI, Envizi, QGIS
Research Platforms: Familiarity with Refinitiv, Capital IQ, Factiva-style research databases; ESG data platforms	Presentation & Business Writing: Advanced PowerPoint, executive summaries, leadership readouts, data storytelling
GenAI & Prompt Engineering: ChatGPT, Microsoft Copilot, structured prompt design, AI-assisted research workflows	Automation & Productivity: VBA Macros, Excel automation, SharePoint administration, SOP development
Domain Knowledge: ESG/sustainability (GRI, TCFD, CDP), real estate market dynamics, energy & emissions KPIs, decarbonization strategy	Soft Skills: Stakeholder management, cross-cultural collaboration, attention to detail, independent contributor, mentoring

KEY HIGHLIGHTS

- Proven ability to connect complex, multi-source data into compelling, structured narratives with a sharp focus on "so-what" — directly aligned with GSIC's mandate to deliver actionable insights to Deloitte's senior leadership.
- Hands-on GenAI and prompt engineering experience, enabling faster, higher-quality research outputs — an advantage in Deloitte's AI-adoption driven research environment.
- International research exposure (University of Kassel, Germany) demonstrating cross-cultural collaboration and independent delivery capability across global contexts.
- Consistent track record of delivering leadership-ready dashboards, reports, and strategy presentations to senior stakeholders across JLL and KSCST.
- Strong command of industry KPIs, macroeconomic drivers, and ESG sector dynamics — providing a ready foundation for market intelligence across sustainability, real estate, and adjacent industries.
