

PROFESSIONAL SUMMARY

Detail-oriented Accounting and Audit professional with 1+ year of hands-on experience in statutory audits, internal audits, bookkeeping, financial reporting, and compliance documentation. Proven ability to independently manage audit engagements — from control testing and stock verification to financial statement preparation and audit report drafting — while maintaining accuracy and meeting strict deadlines. Proficient in Microsoft Excel, Word, and PowerPoint with strong foundational knowledge in accounting principles, general ledger reconciliation, and financial data analysis. Currently pursuing CMA certification, demonstrating commitment to continuous professional development. Eager to apply audit expertise and compliance knowledge to support U.S. tax return processes within Deloitte's Tax Services practice.

PROFESSIONAL EXPERIENCE

S. Sanketh & Co. — Chartered Accountants

Audit & Accounting Trainee (CMA Articleship)

March 2024 – July 2025

- Maintained accurate bookkeeping and financial records for multiple clients simultaneously — developing strong attention to detail and the ability to manage competing priorities under deadline pressure.
- Conducted statutory and internal audits end-to-end — including audit planning, control testing, stock verification, risk identification, and preparation of audit findings and reports.
- Performed general ledger reconciliation and processed journal entries, ensuring accuracy and integrity of financial data across client accounts.
- Assisted in preparation of financial statements and supporting audit documentation — gaining hands-on exposure to compliance reporting and structured documentation workflows.
- Identified and documented internal control gaps during audit engagements, providing actionable recommendations to clients for process improvement and compliance strengthening.
- Tracked and managed engagement documentation and status updates, ensuring all deliverables were completed on time with required quality standards — directly applicable to tracker-based workflow tools.
- Coordinated with clients to collect financial data, resolve audit-related queries, and ensure smooth information flow between engagement teams and stakeholders.
- Analyzed financial data to identify variances, trends, and opportunities for improvement — applying critical thinking and analytical skills to real-world audit and financial scenarios.
- Assisted senior auditors in preparing reports, circulating updates to relevant teams, and maintaining organized audit documentation repositories.
- Demonstrated strong aptitude for quickly learning and adapting to new tools, audit methodologies, and compliance frameworks across varied client engagements.
